EVO-STIK

Bostik Industries Limited
Product Catalogue
2009/2010

Welcome to our new product catalogue

World class innovation...

Bostik is one of the world's leading providers of adhesive and sealant solutions. Our relentless pursuit of excellence lies at the heart of everything we do and ensures that the products we produce are of the highest specification. We've also built our reputation on providing first class support to all of our customers and it is these combined commitments to innovation and service that continue to drive our business forward.

...made easy with our new product catalogue

For the first time, this new catalogue contains our entire range of building and consumer products. It has been designed to put all the information you need at your finger tips and to help make the decision-making process easier for you. Here are just a few of the other features we've added:

Colour coded sections for quick reference

Alphabetical index at the back of the catalogue - search for the product you need by Product Name

Product usage matrices - providing information on product capabilities and applications

In addition to this we're now bringing you more choice than ever before, with numerous additions to our product range, which are identified by this symbol:

You'll find our Order Line telephone number at the bottom of every page and you can also email us with ease on **orders.bostik-irl@bostik.com**

...and we're committed to excellence

All our sites are quality approved to ISO 9001:2000 standard, which we use as a benchmark for ongoing improvement in all areas. Our commitment to excellence also extends to ensuring that we play our part in helping minimise environmental impact. As a company we throw our weight behind a variety of local community projects, the prevention of pollution and maintaining the highest practicable standards in Environmental Control.

We hope you find this new look product catalogue useful and feel inspired by the extensive range of new products available.

Bostik's Best Wood Flooring Urethane Adhesive*

NEW

- Solvent free adhesive with long open time
- Remains elastomeric - moves with expanding/contracting wood
- Tacky consistency - holds down engineered planks with normal bow

*For further details, please refer to Matrix page 87

Levelling Compounds

Floor Levelling Compound*

- Provides a smooth level to concrete sub-floors prior to the laying of decorative floor coverings
- Very easy application
- Excellent coverage and self levelling properties
- Suitable for single layer of 3mm

Lithofin MN Stain-Stop*

- Ready to use invisible impregnator to protect absorbent, stain-sensitive natural and engineered stone surfaces against staining, indoors and outdoors
- Largely prevents penetration of oil, grease and water, making further maintenance easier
- Also for polished surfaces
- No gloss, effective for many years
- Coverage approx. 5 to 7 sq. metres per litre

*For further details, please refer to Matrix pages 90-91

Lithofin MN Colour Intensifier*

- Improves the appearance of rough, absorbent natural and engineered stone surfaces. Ideal for concrete slabs and pavers
- Enhances the colour, accentuates the structure, makes water and dirt repellent without creating a gloss
- Ready to use, for indoors and outdoors
- Coverage approx. 7 to 15 sq. metres per litre

WATER STOP Liquid

NEW

Seals & protects your property... ...even in the wet

Rito WaterStop Liquid is formulated using **MS Polymer technology** resulting in a multi-purpose **solvent free waterproof coating** for use on all common building backgrounds. It is designed to stop the travel of water through porous, cracked or degraded backgrounds.

Seals & Protects

Repairs all roofing problems easily. Bridges cracks up to 5mm. Fills Voids/Expansion joints up to 10mm.

Stop Leaks

Stops leaks instantly and is suitable for interior and exterior use.

On wet surfaces

Can be applied on wet surfaces and requires no protection from moisture or rain during curing.

Tanking

Suitable for use under tiles ensuring maximum waterproofing, can also be used for balconies and terracing.

Easy application...

Preparation
The background must be solid, stable and free from all traces of gravel and dirt. Remove all organic growth such as moss, lichen etc. The area to be protected must be free from oil and grease. Dry any areas of pooled water.

Application
Prior to applying Rito WaterStop Liquid it is advisable to ensure that the temperature is above 5°C and remains until the product has cured. Remove one of the foil pouches from bucket and open carefully over the desired work area. Apply Rito WaterStop Liquid by brush or roller ensuring that all surface areas receive a continuous and uniform covering of the product. The Product should be allowed to dry for approx. 4 hours before a second coat is applied.

Coverage
1kg per metre squared per coat.

Cleaning tools
Discard rollers/brushes in accordance with local requirements. Scrapers etc. allow product to cure and peel off when dried.

Flat Roofs

Easy and fast 2 step application. Self levelling compound that requires no primer and is over paintable.

Ground Works

Protects underground building work against corrosion and pressured water.

EASY TO APPLY

QUICK DRYING

SOLVENT FREE

BITUMEN FREE

Please test the product in an inconspicuous area before use.

Note: TC = Terracotta

1 To remove deep ingrained oil stains please try Lithofin Stain-Away.

2 With the assistance of a white (nylon) pad.

3 Please use heavily diluted with great care and attention on acid sensitive surfaces.

4 Always use Lithofin KF Cement Residue Remover for indoor use due to lower atmospheric acid damage, potency.

5 Impregnation is not possible for all types of porcelain tiles. Please test before use.

6 The chosen product used on the tile may also be used on the grouting.

7 Please test before use. The colour or texture of pre-treated tiles could be affected.

This information should only be used as advice without obligation. It has been obtained through practical experience and will convey a concise overview without details. Further detailed information is available in the directions for use, in technical information sheets provided. The use of the product is to be adapted to suit the local circumstances and the requiring treatment. The manufacturer and distributor of this product accept no responsibility for misuse or problems that may occur during its application. In all cases of doubt, test the product first in an inconspicuous area.

lease test the product in an inconspicuous area before use.

Instead of Lithofin Wax-Off you may be successful with Lithofin WEXA

¹ On absorbent surfaces you may apply the chosen impregnator before grouting. This will increase the ease at which the excess grouting may be removed.

² With the assistance of a white (nylon) pad.

³ Use only heavily diluted (not for Italian or similar slate)

⁴ Alternatively use Lithofin MN-Polish (fluid).

⁵ In order to achieve a shine without intensification of colour use Lithofin MN-CARE-SEAL.

This information should only be used as advice without obligation. It has been obtained through practical experience and will convey a concise overview without details. Further detailed information is available in the directions for use, in technical information sheets provided. The use of the product is to be adapted to suit the local circumstances and the required treatment. The manufacturer and distributor of this product accept no responsibility for misuse or problems that may occur during its application. In all cases of doubt, test the product first in an inconspicuous area.
